## About This Game

1998. HALF-LIFE sends a shock through the game industry with its combination of pounding action and continuous, immersive storytelling. Valve's debut title wins more than 50 game-of-the-year awards on its way to being named "Best PC Game Ever" by PC Gamer, and launches a franchise with more than eight million retail units sold worldwide.

NOW. By taking the suspense, challenge and visceral charge of the original, and adding startling new realism and responsiveness, Half-Life 2 opens the door to a world where the player's presence affects everything around him, from the physical environment to the behaviors even the emotions of both friends and enemies.

The player again picks up the crowbar of research scientist Gordon Freeman, who finds himself on an alien-infested Earth being picked to the bone, its resources depleted, its populace dwindling. Freeman is thrust into the unenviable role of rescuing the world from the wrong he unleashed back at Black Mesa. And a lot of people he cares about are counting on him.

The intense, real-time gameplay of Half-Life 2 is made possible only by Source®, Valve's new proprietary engine technology. Source provides major enhancements in:

- Characters: Advanced facial animation system delivers the most sophisticated in-game characters ever seen. With 40 distinct facial "muscles," human characters convey the full array of human emotion, and respond to the player with fluidity and intelligence.
- Physics: From pebbles to water to 2-ton trucks respond as expected, as they obey the laws of mass, friction, gravity, and

buoyancy.

- Graphics: Source's shader-based renderer, like the one used at Pixar to create movies such as Toy Story® and Monster's, Inc.®, creates the most beautiful and realistic environments ever seen in a video game.
- AI: Neither friends nor enemies charge blindly into the fray. They can assess threats, navigate tricky terrain, and fashion weapons from whatever is at hand.

Hands down one of the best FPS games ever made. It never gets old.. \u201cTVs! Free TVs!\u201d. cant complete the game without walkthrough  
but still its a masterpieces  
one day i can complete half life 2 without walkthrough  
This game is like donkey kong & mario but with explosive barrels

this game is gold. Totally Amazing!!! Half Life 2, like it's predecessor, is one of those classic games that words fail to describe. It worth every single cent, but you better purchase it on a bundle with the whole series. Highly recommended for everyone, especially for people of good taste, that can appreciate this old time classic gem of an era never to return.... Great FPS with fun puzzles and obstacles throughout the game that always keep you on your toes. I love the aliens and the suspenseful story it's amazing and a great attention getter. 10/10!. not as good as half life 3. Imagine being so beta that this game isn't in your steam library. Yeah, I can't imagine it either.

Fantastic game, great and diverse missions, excellent story, decent graphics. HL2 is an overall enhanced HL1. 10/10. a masterpiece, but i want half life 3.. Great FPS with fun puzzles and obstacles throughout the game that always keep you on your toes. I love the aliens and the suspenseful story it's amazing and a great attention getter. 10/10!. Gameplay Really good. i like it when funny orange man punch space mask people in face with bullet and crowbar. \u201cTVs! Free TVs!\u201d. Fantastic game, great and diverse missions, excellent story, decent graphics. HL2 is an overall enhanced HL1. 10/10. Its a classic game and i've weirdly put quite a lot of hours into it. It's definitely a game you should play at some point. Pick it up on sale or something. The graphics are a bit dated but the gameplay is fun.

9/10
